Contact: **Mr. Efraimidis Nikolaos**

Eastern Macedonia and Thrace lies on the Northeastern edge of Greece and consists of 5 cities and the two magnificent islands of Thassos and Samothraki. As a crossroad of East and West, of South and North, has for centuries been a part of ancient Thrace, the land that gave birth to philosophers such as Democritus and Protagoras and brought up art works such as the unique sculpture of the Victory of Samothraki. The scene is composed by some of the most unspoiled landscapes in Europe, natural virgin forests on Rodopi's mountains, the meandering Nestos River, with its breathtaking Delta, the wetlands of Vistonida and Ismarida lakes, waterfalls, caves and sandy beaches washed by the crystal clear waters of the Aegean Sea. Ancient and byzantine monuments, museums, traditional villages are here to be revealed. Among them the worshipping sanctuaries of Dionysos, that stand here to confirm the famous viniculture and wine production of the area. Traditional wineries produce quality wines, whereas the area's gastronomy is flavored by local products of high quality and nutritional value, many of which have been singled out as PDO and PGI.
